Lincoln Memorial Completed

The great Lincoln Memorial at Washington, costing about two and a half million dollars, is virtually completed and will likely be dedicated this year. It's architectural beauty impresses and inspires all who visit it, but big as it is, as beautiful as it is, it can only serve in its mute limited way to remind this nation in the centuries to come of the great spirit of the man whose memory it commemorates, the humble Abe Lincoln, American—born Feb. 12, 1809; died April 15, 1865.

ANTHONY W. IVINS AT HIGH SCHOOL TODAY

It is definitely assured that Elder A. W. Ivins, Boy Scout National Councilman for the church, will be at the Boy Scout Court of Honor meeting at the Logan High School Auditorium Thursday, February 3, at 7:30 p. m. Scout Executive Wood received a telephone call Monday night definitely assuring his presence here for that meeting. We are also assured by Elder Melvin J. Ballard that the appointment for Elder Ivins had been made.

The meeting is being held in connection with the Home and School League which holds its meetings on the first Thursday of each month. There will be a preliminary program of music furnished by the school children under the direction of Prof. A. M. Durham.

Besides the address of Elder Ivins there will be an investiture of ceremony in which about 75 Scouts will be given highest honors. In all about 200 badges will be awarded. Last Sunday a meeting of the Court of Honor was held and a very beautiful ceremony was worked out. It should be seen by every one in Logan.

PROGRAM ADOPT- ED BY CHAMBER OF COMMERCE

Here are some more suggestions made by the membership of the Chamber of Commerce to be considered in making up the program of work for this year.

Work for a good all year road by way of the new survey back of Mt. Sterling to summit in Wellsville canyon. Give attention to proper maintenance of roads.

Insist upon the planting of lawns in all parkings along Main street, Center street and other streets and sidewalks, near the center of Logan.

Get a new ball park for Logan by appealing to the city commission or other means. We must have one soon.

Work for less waste of public money and take some action to get the middle men's and retailer's profits down where they should be.

Work for the prevention of putting over sized material on the roads. Much money is wasted in putting on nigger heads on the roads and then raking them off. They make a bum road any way. L. P. Peterson and E. P. Hansen have the right idea in this regard. Back them up in their petitions.

Begin campaign for community gymnasium and club headquarters. Also for city hall.

Provide apartment house facilities for the extra hundreds of students and visitors who would live in Logan part of each year if modern conveniences were available to a greater extent.

Economy in everything.

Many of the cards sent to the members asking for suggestions have not been received. Send them in at once.

The growth of the telephone since its invention forty years ago has been amazing. Today there are approximately 12,500,000 telephones in use in the United States and the messages carried total over twenty-two billions per year.

Dairy men desiring to secure something well bred should attend the sale. This is the first sale ever attempted in Cache county. Let's make it an annual affair, not only for bulls but for female stuff as well.

This is dairymen's day so let us have a large crowd. Farmers are not so busy now but what they can arrange to leave the place for one day.

At 7:30 in the evening a banquet will be given at the Hotel Eccles. An invitation is extended to all those who desire to attend. We hope a lot of you will bring your wives and enjoy the day's entertainment. This opportunity comes only once a year. Come out and see your neighbor so you can exchange ideas with him.

'WAY DOWN EAST' AT THE LYRIC TONIGHT

To see Creighton Hale chasing a butterfly in "Way Down East" which will be at the Lyric tonight for a three day run, or to catch a glimpse of him as he dances in bewildered fashion in the barn dance of that D. W. Griffith production, one would think the impersonator of the professor to be rather an unskilled person. But the awkwardness of Hale is not inefficiency. If one saw him as just Creighton Hale soaring aloft in an airplane and making all sorts of difficult evolutions respect for the aviator would come at once. And Hale is a good aviator a splendid motorist and a fine swimmer. Moreover he is a good actor with a record of achievement on the professional speaking stage. That he has made good in pictures is but another indication of his versatility.

Hale is an Irishman, having been born in Cork and it was in Dublin and in London that he had his early education. He comes of a theatrical family and it was only natural that at an early age he should turn to the stage for a career. He played in a number of productions in London and made his American stage debut with Gertrude Elliott in "The Dawn of a Tomorrow." Subsequently he appeared in leading roles in Broadway productions. Among his early screen appearances were "The Ex-

Four new courses of especial interest to commercial students and business men will be offered by the School of Commerce and Business Administration of the Utah Agricultural College, during the spring quarter which opens March 7 according to Prof George B. Hendricks, director of the school.

Possibly the most interesting of these courses, from the standpoint of the average business man, will be the course in credits and collections, to be given by Dr. W. L. Wanlass, professor of business administration and marketing. This course will cover such subjects as the nature of credit, credit instruments and institutions, courses of credit information, bases for credit financial or credit statements, collection methods and legal remedies of creditors. It will meet on Mondays, Wednesdays and Fridays at 10 o'clock.

Statistical methods in business also to be given by Dr. Wanlass, will make a big appeal to students in the school of commerce and to business men. In this course the nature, methods and use of statistics will be carefully considered with special reference to the needs of business. Attention will also be given to the courses of statistical data, methods of tabulation and interpretation of statistics and the various ways of presenting statistical conclusions.

A course in insurance, covering the nature of life and fire insurance, the scientific basis upon which insurance rates are arrived at, the community and personal service of insurance and certain aspects of insurance salesmanship will be given by Prof. D. E. Robinson.

Labor problems a course of especial significance at the present time, will be offered by Mr. J. B. Bearson. This will go into the nature of labor supply and demand, the handling of labor disputes, the problem of housing labor and many related fields.

Anyone who expects to register for any of these courses should see the instructor concerned before February 15, in order that text books may be ordered.

The lecture by Dr. Barker at the tabernacle was very convincing of the needs of a strong physical body, or as he called it the strong arm. He very carefully and effectively told of the life of former President Theodore Roosevelt, who as a boy was an invalid but through carefully arranged exercises had become a perfect physical man when he entered Harvard at the age of twenty-two. Exercises twice each week at the local high school will keep any man in good physical condition and give him the strong arm which Dr. Barker says is so necessary for a successful life. The course at the high school has been devised by the athletic council of the Chamber of Commerce to help the business men physically. The class has grown from a small one to a large one. New members are joining every week. Come Monday and Thursday evenings at 6 o'clock.

plots of Elaine," and "The Perils of Pauline," both highly popular. "The Iron Claw," "Hazel Kirke," and "The Old Homestead," were other pictures in which he assumed important roles.
